

## CBRN CONOPS

Due to the sensitive nature of this plan it has been classified under the Government Protective Marking Scheme as RESTRICTED.

This LRF has identified Chemical, Biological, Radiological, Nuclear incidents as a risk and therefore maintains this plan.

This Concept of Operations is intended to aid the incident response and resolution and ensure that resources are mobilised to a level that is appropriate and proportionate to the event. It is intended to facilitate a process that ensures the relevant agencies are quickly alerted with high quality information so that disruption and risk is kept to a minimum.
