

LRF Resilient Telecommunications Plan

Due to the sensitive nature of this plan it has been classified under the Government Protective Marking Scheme as RESTRICTED.

This LRF has identified the importance of maintaining effective communications and therefore maintain a plan.

The aim of this plan is to outline the arrangements to ensure availability of communication between key responding organisations, prior to and during disruptions to mainstream methods of communication. This is the Leicester, Leicestershire & Rutland Local Resilience Forum response to the government's strategy for enhancing resilience.

“Ensure that emergency responders at all levels can communicate and share information effectively in a major emergency.”
